1648	Chimps left the day nests and took off and lost heading North.																			
1732	PG ED Came at the Ficus campensis and climbed into it.																			
1736	We saw a certain female nesting in a tree. Height 16, DBH?																			
1742	She finished nesting and we found it was PU.																			
1745		PU		ED PG		PB	Bosque Isle	✓			FCA RF									
1753	Chimps called from the east like in mikana and the party made HOS responses.																			
1759	Again chimps called from the east and batress banged, and the party again made HOS.																			
1805		PU		ED PG		PB	Bosque Isle	✓			FCA RF									
1808	PG ED left the FCA tree heading to where the unknown female had nested.																			
1815		PU		ED PG		PB	3	✓	✓		FEX YL									
1819	PG starts dnesting in Bosque tree. Height 13, DBH 28.																			
1823	PG finished nesting the night nest.																			
1836	The female made nest grants from the nest and ED joined the calls with nest grants too and he begun nesting.
